California Association of School Business Officials (CASBO) **2007 Annual Conference**

Monday, April 16, 2007

San Jose Convention Center

Representatives of the State Controller's Office (SCO) will provide information and answer questions as to what districts can expect from SCO audits and how to navigate them successfully. Despite receiving over \$900 million in past mandate reimbursements as part of the current year budget, many school districts are hesitant to spend the dollars due to uncertainties over the current state audit process. SCO representatives will provide information, answer questions, and hopefully ease some, to the widespread concerns over impending audits.
